Elite 10KVA 3 Phase Site Transformer
Sales Specification Sheet

Description:

The Elite 10KVA 3-Phase site transformer is essential for your site power needs. Heavy duty steel construction ensures this product will be a reliable addition to your hire fleet and the fully corrosion resistant coating will ensure it stays in excellent condition after many years of service.

The Elite 10KVA continuous load rating is protected by a 3 pole 16A MCB on the input in addition to this all outlets are also protected. In total there are the 4X 16A and 2x 32A sockets all manufactured to IEC 60309.

Note, the Elite 10KVA 3 Phase site transformer does not come with a mains input cable or plug, the transformer comes with an opening, gland and connection block to be connected by a qualified person.
